

BEAM Dashboard – Veteran and Female Enrollment by Degree Program

April 2019

This dashboard displays the unduplicated headcount of veterans and females for all five degree programs related to Energy Management and Controls Technology (EMCT) for the most recent spring term. The goal is to increase to **15%** the proportion of **veteran** students and to **25%** the proportion of **female** students who declare a major in these degree programs by the conclusion of BEAM's performance period. The data were compiled by Valencia College's Office of Institutional Research.

Veteran Enrollment	Spring 2019	Project End Goal	% of Goal Achieved
AS: Computer Information Technology	8.4%	15%	56% 
AS: Building Construction Technology	7.1%	15%	47% 
AS: Computer Programming and Analysis	7.5%	15%	50% 
AS: Electronics Engineering Technology	9.9%	15%	66% 
AS: Network Engineering Technology	12.8%	15%	85% 

Female Enrollment	Spring 2019	Project End Goal	% of Goal Achieved
AS: Computer Information Technology	16.9%	25%	68% 
AS: Building Construction Technology	17.9%	25%	72% 
AS: Computer Programming and Analysis	23.7%	25%	95% 
AS: Electronics Engineering Technology	11.6%	25%	46% 
AS: Network Engineering Technology	15.5%	25%	62%
